

Secure Hosted Exchange

Eliminate the hassles of in-house servers.

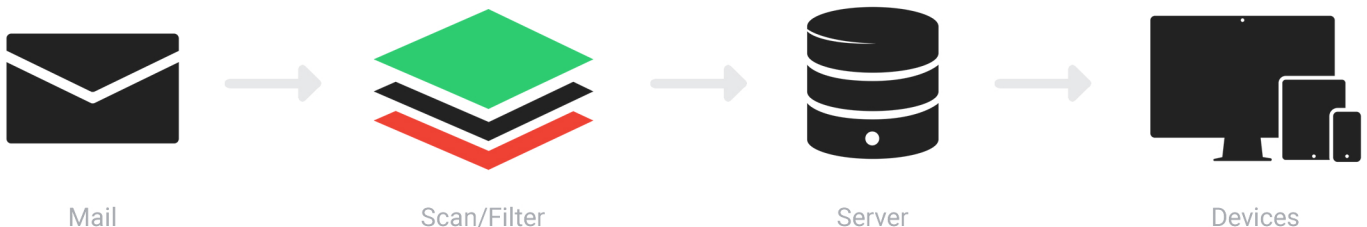

Secure Hosted Exchange gives you control of your email system without the complications and expense of managing your own servers. For a low monthly, per-mailbox fee, you get unlimited storage with the best spam and malware protection in the business built right in.

Features

- Easy, Web-based access
- Unlimited Mailbox Storage
- Optimized performance with Akamai IP Acceleration Technology
- Embedded spam and malware protection
- Shared Mailboxes, Public Folders, In-Place Archiving
- Outlook 2013 for PC or Outlook 2011 for Mac

Benefits

- Simple portal management for routing, aliases, groups, users, and many other client configuration settings
- Mobile device support for iOS, Android, Windows Phone and BlackBerry
- Fully-functional Outlook Web App access
- Live spam statistics and zero-hour alerts
